Workers Education: education of workers, by workers, for workers!!

The IFWEA study circle programme has been running in Cape Town for the past 4 years training members in study circle methodologies that promotes collective learning. Our focus is to strengthening grassroots leadership and improve membership participation and confidence.

This year we will introduce specific methods of popular education that plays an important role in raising awareness among and involving grassroots leaders for social change - theatre, music & dance and film. We encourage young and new leaders to become involved in study circles to further their education and experience of organising and organisational development. The programme is open to trade unions and community based organisations.

REGISTRATION REQUIREMENTS:

- The study circle must have between 6-10 members who can all attend the course on the set dates.
- Participants should have access to smart phone, tablet or computer and preferably complete the short course "An Introduction to Study Circles on the IFWEA Online Labour Academy (www.ifweaonline.org)
